Welcome to our virtual exhibition on proposals to create the region's first inland **surf park**, in TraffordCity.

Belfast-based property developer, McKinney Group, has announced plans to create the north west's first inland surfing facility in Trafford, which will be called Modern Surf.

Powered by Wavegarden's world-leading patented wave technology, Modern Surf will create a must-visit destination for people of all abilities, from those learning to surf to experts in the sport.

We look forward to hearing your views on the proposals.

SAFE AND SECURE ENGAGEMENT

In light of the COVID-19 pandemic, we have altered our engagement approach to ensure compliance with social distancing guidelines, whilst also giving local residents, businesses and community representatives an opportunity to feedback into our final designs. That is why we are hosting a virtual exhibition, rather than holding a public event, as we would normally do.

We are committed to working with the local community at all stages of the planning process and look forward to hearing your views on our plans.

Please look through these boards and let us know your views by using the feedback form provided at the end of this exhibition.

GET IN TOUCH

Please feel free to get in touch if you have any questions on what is shown on our boards or if you encounter any technical problems.
